Subject: Fwd: List of Questions for tomorrows hearing
Attachments: ATT00001.txt

Morning. Sharing as an FYI. Below are questions we received from a senator that she plans on asking at today's Texas senate hearing. I have to assume similar questions will be asked tomorrow so wanted you to have.

What's your arrival time tomorrow morning?

Subject: List of Questions for tomorrows hearing

We just received a list of questions from Senator Alvarado. She would like to have these answered in tomorrow's hearing. We would like you to review these questions and be her at 9:00 am tomorrow in the exec office for a briefing.

- #1. Update on latest for ITC
- #2. Regulatory tools that TCEQ has for response to these disasters
- #3. Want to know the extent of how far the lawsuit can go- they have read a report that states up to \$100,000.00.
- #4. What kind of administrative tools have been given to get them into compliance
- #5. What is TCEQ's jurisdiction to an incident/plant like this. Comments such as: Issues about layout of tank, issue of foam used, do they have to submit the layout and water pressure.
- #6. What type of permit(s) do they need for a type of plant such as ITC?
- #7. Want to discuss past violations and what the consequence were with those violations. Did any of the violations involve any tanks that caught fire or the operations of those tanks.

Ramiro, as we discussed, please provide a comparison of the compliance history with the tanks involved (80-1 to 80-15).

See you all tomorrow at 9:00am in executive office. Please let me know if you have any questions.

Thank you,
Dennise
